INSTRUCTION.

Place the cards as instruction to design your own experiment.
Colours represent different fields of data.

Pick least 1 card per colour

- 1.To start, choose the maximum 5 cards from red, orange cards and place them on 'PRE- GAME 1 - 5' zone.
Warm colour sections are pre-game timeline.
- 2.On the 'MEASURE' sector on top-right, decide experiment subject by placing choosing the 'Measure' cards and place on middle section of board.
- 3.Choose the maximum 5 cards from orange, yellow cards and place them on 'PRE-GAME 6 - 10' zone.
- 4.From 'SERIOUS-GAMING' sector, Timeline changes to in-game.
Pick the maximum 5 cards from green,blue types and place them on 'GAMING 1 - 5' zone.
- 5.On the 'MEASURE AGAIN' sector, refer back to the 'Measure' cards for experiment subject after the game.
- 6.Finally, pick the maximum 5 cards from purple cards and place on them 'POST-GAME' zone to finish planning your experiment.
